

## **Collins exhibits explained:**

**Duplicates:** 26 total exhibits, 11 exhibits are duplicates.

- The drainage exhibits 11,12,13, 15 & 16 are all on my property which extends about 12 inches on the other side of the property line wall on the Collins side in that area. See survey.
- The flow of water exhibits # 11, 12,13 & 15 could all be the same day.
- No trespassing signs Exhibits #1, 22 & 24 are basically the same sign in different locations.
- Nosey neighbor signs exhibit #6 & #8 are the same sign just different angles.
- Smile your on camera sign exhibit #7 was replace by the sign in exhibit #9. Basically this is the same sign just redone.

## **Exhibits:**

- #1 No trespassing sign. Sign on a stake on my property, the same as exhibit #22. This was taken down on 6/25/04 after the Peace Order hearing so shouldn't have been admissible.
- #2 911 sign – not mentioned in lawsuit or interrogatories, was put up after my property was vandalized
- #3 This was part of my party decorations from a May 2004 Caribbean party. This had nothing to do with the Collinses. The must have been desperate to show this as exhibit to harass them. This was prior to lawsuit and not mentioned in lawsuit or interrogatories. This shouldn't have been admissible.
- #4 Best Buy camera and camera sign – clearly pointed down my yard. These were very inexpensive camera's that have a short dept of field and never worked. Ann Collins wrapped the cameras as a Christmas present to me, from a friend, 2003.
- The Vector cameras were installed 7/27/05 after the wire's were cut in my brothers boat and myfather's dog drugged. Collins didn't introduce pictures of the two Vector camera's on the north side of my house probably because it's easier to see that they are only pointed at my yard.
- #5 Boat house Mick Jagger tongue – not mentioned in lawsuit or interrogatories. Put up 11/2/05.
- #6 Nosey Neighbor Sign – pointed directly where Collins would hide behind their garage and harass my friends and guests. Not mentioned in lawsuit or interrogatories. Put up 10/20/05. Same as exhibit #8, picture taken from a different angle. Not visible from road.
- #7 Smile your on Camera sign – placed directly where Ann Collins wouldn't leave the contractors alone. This sign replaced exhibit #9. Put up 8/9/06.
- #8 Nosey Neighbor Sign- is the same sign, same location picture just taken from a different angle as exhibit #6. Put up 10/20/05

- #9 Smile your on Camera sign – this was the first sign in the area where Ann Collins wouldn't leave the contractors alone and was replaced by sign in exhibit #7. Not mentioned in lawsuit or interrogatories. Put up 8/9/06.
- #10 Save the Boathouse Legal Fund – this is my sign for my party and shouldn't have been entered as an exhibit. Not mentioned in lawsuit or interrogatories. Put up July 2006. My friends didn't want me to have to take the boathouse down!
- #11 The fence and wall are my property in this picture. Collins and their attorney's including Carney can't read a survey. No indication of when this was taken or why the water was flowing. For all I know Collins could have set up a hose to run there and taken the picture. Exhibits #11, 12, 13 and 15 are probably all taken the same day.
- #12 Flow of water - No indication of when this was taken or why the water was flowing it doesn't appear to be raining. I could have been emptying the swimming pool. Exhibits #11, 12, 13 and 15 are probably all taken the same day.
- #13 Flow of water near jog in property line wall- No indication of when this was taken or why the water was flowing it doesn't appear to be raining. I could have been emptying the swimming pool. Exhibits #11, 12, 13 and 15 are probably all taken the same day.
- #14 Water in Collins front yard – No indication of when this was taken and why the water was there. It could have been a heavy rain, Collins property flows down to that area in the front. Or it could have been an extremely high tide that had receded. This could have been a different day and has nothing to do with exhibits 11, 12, 13 or 15.
- #15 The fence and wall are my property. My property extends on other side of wall in that area so I don't know what the point of this was. No indication of when this was taken or why the water was flowing, it doesn't appear to be raining. Collins could have set up a hose to run there and take the picture. Exhibits #11, 12, 13 and 15 are probably all taken the same day. There may have been a logical explanation since nothing has change and the Collinses certainly aren't worried about the drainage anymore.
- #16 The fence and drain pipe are on my property in that area. The drain runs to my wall and my property extends on the other side of the wall about 12 inches. The Collinses and the attorneys need to learn how to read a survey. The wall up to the jog is inside my property line. The Jog is 19 inches and 10 of those inches are on my side. The jog isn't three feet as the Collinses said in court.
- #17 That's my sump pump and drains on my property. It's not 3 or 4 feet high as Ann Collins stated in court. It is the end of the same pipe as in exhibit #16. The pipe drains to the wall on my property.
- #18 My side yard – I don't know what the point of this exhibit was. The wood horse is there because I had to put a guide wire in to hold the fence up and didn't want anyone tripping over it at my party. The caution tape was put there for the same reason. The fence was unstable and I didn't want anyone leaning on it.
- #19 View from Collins yard over to my yard. As you can see the fence on top my retaining wall is insignificant to the Collins view. Collins view is in front of their house just like everyone else's.

#20 Shows jog in the wall and the fence. My fence runs right along the wall. The jog is 19 inches and 10 of those inches are on my property. No one can apparently read a survey! I think this is a picture of the string line Collins ran from the back of his shed and he took it down the middle of the boat ramp. This was on 5/25/04; this was the first time I called the police on Collins. The Collins were trying to say half the ramp was theirs which clearly isn't true based on our surveys.

#21 Shows fallen wall at the jog. You can see the guide wire clearer in this picture, which is holding up the fence. The caution tape was put up so no one would lean on the fence and get hurt.

#22 No trespassing sign and you can see it's on a stake inside my property line. Same sign as in exhibit #1. This was taken down on 6/25/04 after the Peace Order hearing so it shouldn't have been admissible.

#23 This is a picture I took before I bought the house. It shows the jog and old terrace wall. There was clearly no reason for me to believe the wall was not the property line. Steve Collins stated in court, page 107 that the picture must have been taken before they bought the property because there were no plants along the wall. In fact I took the picture the end of January 2001; Collins bought their house on August 15, 2000.

#24 No trespassing sign is on my fence. This is the one Collins spray painted black. This sign was replaced by the sign in exhibit #1 & 22, which are the same sign. And the same sign that was taken down after the peace order on 6/25/04.

This exhibit also shows how the wall that Mr. Cook built went all the way down to the bulkhead. Mr. Cook didn't leave any access to the 341 side.

#25 Snow picture dated 1/19/00. You can see the slope in my front and side yard. I had that removed and pulled in closer to the house in the front and on the north side when I replaced the creosote railroad tie retaining wall. The upper ground level is no higher than it was before. You can also see the concrete patio in the Collins front yard. I seriously doubt they sat on my boat ramp as Ann Collins stated they did. The ramp often has duck and geese guano on it. And moss grows on the ramp.

#26 This is Ann Collins and her granddaughter feeding the geese on my boat ramp. You can see the wire fence so this was taken prior to 6/22/02. This is the best the Collinses could do given they said they used the boat ramp all the time with family, friends and their dogs up until the peace order on 6/25/04. Ann Collins and her granddaughter are trespassing since they are on my side of the boat ramp!

There was also an exhibit that the Collinses referred to as a spite fence. The fence extensions were only put in areas where Collins property was higher, to keep our dogs apart. The Collinses thought it was funny to have their dog run to the fence and bark, stirring up my dogs. And, contradictory to the Collinses testimony, I have two places in my yard where the extensions are on the fence. The extensions were put there by my father in an effort to minimize tension.
